

## PRODUCT INFORMATION

### General disposal of Pfleiderer products

- With regard to the disposal of wood-based panels manufactured by Pfleiderer, these must comply with the currently applicable national and / or regional regulations. When waste is processed or at the end of the life cycle, Pfleiderer products can be sent to an industrial heating system or waste wood disposal facility approved by the authorities for municipal and industrial waste.
- Please contact a waste management company for this purpose. Our recommendations for possible waste codes in accordance with the Waste Directory Ordinance (AVV) are:

3	Waste from woodworking and the manufacture of panels, furniture, cellulose, paper and cardboard
03 01	Wastes from woodworking and the manufacture of panels and furniture
03 01 05	Sawdust, shavings, cuttings, wood, chipboard and veneers other than those mentioned in 03 01 04
03 01 99	Wastes not otherwise specified - Not mentioned elsewhere (e.g. flameprotect)
20 03 99	As an <b>alternative</b> to waste not otherwise specified Municipal waste (household and similar commercial, industrial and facility waste), including separately collected grouped items
15 01	Packaging
15 01 02	Plastic packaging material (stretch film, anti-slip mats)
15 01 03	Packaging material made of wood (pallets, squared timber, protective panels),

#### Thermal recovery

- If thermal utilization is to take place in the processor's incineration plant, a permit in accordance with the 4th BImSchV / "Ordinance on plants requiring a permit" may be required.
- The responsibility of the legally compliant disposal always rests with the waste producer and not with the panel manufacturer. Our recommendations are only exemplary and not conclusive.
